

Tessellations

- ☆ Create a tessellation from a 3x3 square.
- ☆ Trace this tessellation on to a sheet of paper and color your tessellation exactly how you want it to look. Be creative and make your character interesting.
- ☆ Using your template trace it 9 times on to a 12x12 piece of paper creating a repeating puzzle design.
- ☆ Use all of your space – fill in extra space with pieces of your tessellation. (There shouldn't be any space between each shape.)
